Our customers' data are securely encapsulated on our server. Each customer can safely deposit and retrieve his/her data on the web server area. A password ensures optimal protection from unauthorized access. TEXTimFLUSS GmbH has access authorization for all data.

If desired by the customer, data may be transferred in other ways as well (in-house exchange server, e-mail, CD).
All data are secured on a daily basis. A weekly backup is made on an external hard drive kept in a safe outside the company.
